

Pennie has delivered new financial savings to hundreds of thousands of Pennsylvanians due to the implementation of the new American Rescue Plan benefits. The American Rescue Plan allows for an increase in the amount of premium tax credits through Pennie for eligible Pennsylvanians at most income levels during the 2021 and 2022 plan years.

Below are some data points on Pennie enrollees resulting from these new savings:

 **90%**

Around **90%** of the **327,215** existing Pennie customers are receiving financial assistance, and the amount of financial assistance available has increased by **\$49 million/month**.

 **\$85**_{/mo.}

Average net premium after financial assistance for all customers is almost half what it was, down to **\$85/month** from **\$168/month**.

 **41K**

Since the COVID-19 Enrollment Period opened on February 15, 2021, Pennie has seen over **41,000** new enrollments.

 **15%**

Approximately **15%** of customers are now receiving the Unemployment Insurance benefit, making them eligible to receive the maximum amount of financial assistance available through Pennie.

On average, these customers are saving around **\$604/month**.

Through an interagency partnership, Pennie and the Department of Labor & Industry automatically connected eligible customers with this significant benefit.
