

Meet Pennie

Pennie is Pennsylvania's own health insurance marketplace: We connect Pennsylvanians to coverage in an unexpectedly simple and approachable way.

Pennie was built with all Pennsylvanians in mind: For those who thought health insurance was out of reach or overwhelming, but also for those who understand the importance of insurance.

Pennie is a helping hand: We're the only individual market source of financial assistance to reduce premiums and lower the cost of care, and we offer unbiased local assistance, education and support every step of the way.

Purpose

Pennie aims to make it possible for all Pennsylvanians to have access to high-quality, affordable health insurance.

Core benefits and goals

Make it seamless

We help fellow Pennsylvanians easily migrate from healthcare.gov to the Pennie platform.

Improve access and service

Local control of operations and customer service allows us to better serve the unique needs of Pennsylvanians.

Lower costs and increase premium savings

Running a state-based marketplace is less expensive than using healthcare.gov resulting in premium savings to customers through the Pennsylvania Reinsurance Program, a partnership with the Pennsylvania Insurance Department.

Who we help

- Individuals and families without access to employer-sponsored coverage
- Customers transitioning from healthcare.gov
- Those who are uninsured
- Pennsylvanians losing coverage due to COVID-19
- Those eligible for Medicaid or CHIP (we have a "no wrong door" policy)

How we help

- Pennie customer service team
- Self-service at pennie.com
- Direct outreach and education
- In-person assistance
- Local support through Navigator/Exchange Assister and certified brokers
